# Enabling Proctorio in Your Canvas Course

Proctorio is an online proctoring tool that works as a monitoring tool for your Canvas quizzes. Follow these steps to get started:
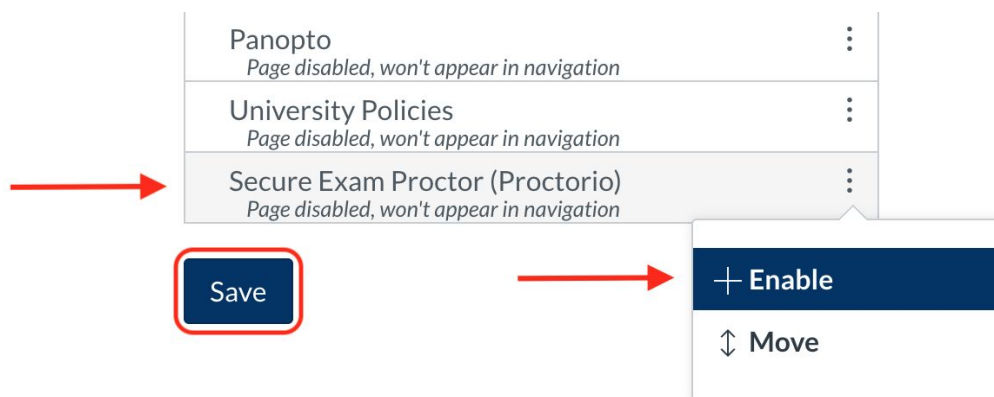

1. Open the Chrome browser application (download Chrome if needed). Proctorio requires both instructors and students to be on Chrome.

2. Log in to Canvas and navigate to your course site.

3. Click on **Settings** in your course menu and select the **Navigation** tab.

4. Scroll down to find **Secure Exam Proctor (Proctorio)** in the lower list of navigation items, click on the three dots to the right of the item and select **Enable**. Then click the **Save** button.

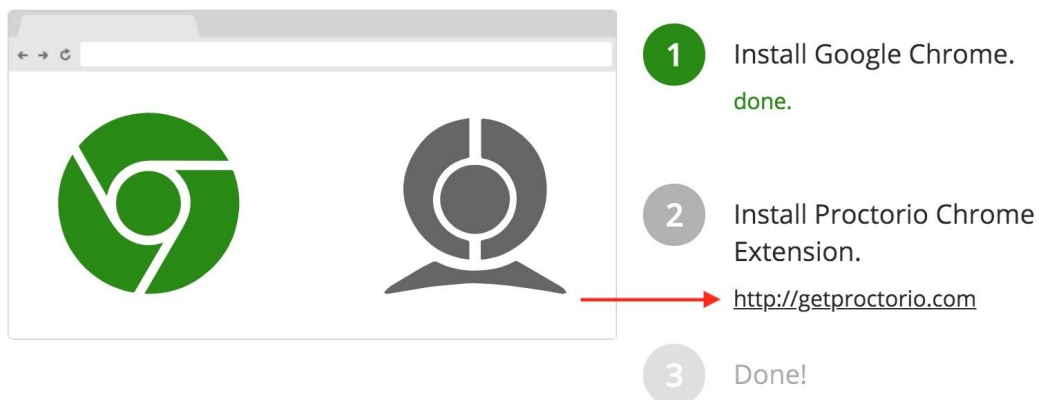

5. Click on **Secure Exam Proctor (Proctorio)** in the course menu. If it doesn't appear, try refreshing the browser window.

   Note: If you already have the Proctorio Chrome extension installed (e.g., you installed Proctorio in another course site), Secure Exam Proctor (Proctorio) won't show up in your Canvas course menu. You can skip the steps below and go to set up a Canvas quiz with Proctorio.

6. Install the Proctorio Chrome extension by clicking on the **getproctorio.com** link.
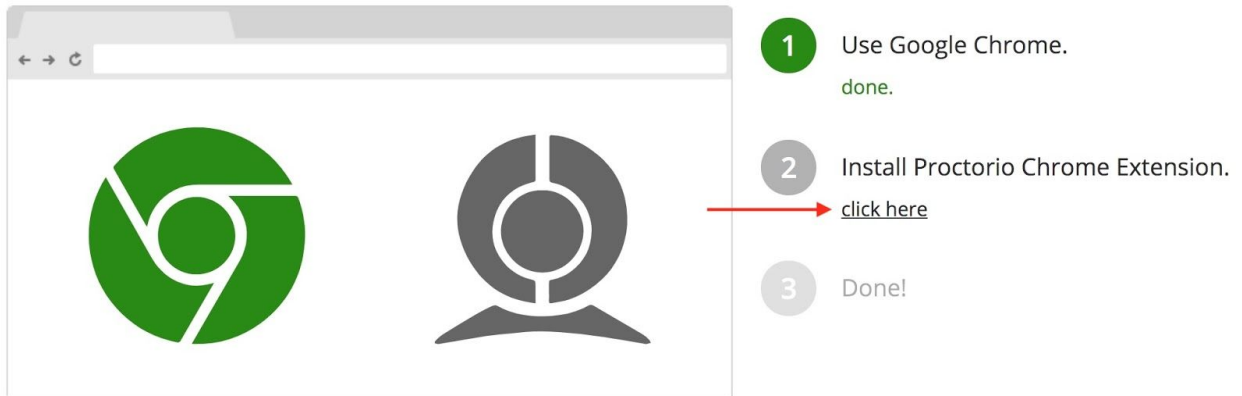

Proctorio *Chrome Extension*

This course requires you to install an extension into your browser.

1. Install Google Chrome.
   done.

2. Install Proctorio Chrome Extension.
